

KHRISTOPHER BEN MANILLA

Fourth-Year Computer Science Student · Software Engineering Intern

Cavite, Philippines · kbmanilla06@gmail.com · github.com/kbmanilla06 · [LinkedIn](#)

SUMMARY

Full-stack engineer building secure, AI-enabled workforce tools with React, TypeScript, Laravel, Python, and PostgreSQL. Experienced in translating requirements into documented systems with role-based security, automated testing, and practical machine-learning workflows.

EXPERIENCE

Software Engineering Intern — StartupLab Business Center & AI Consulting Services OPC | 2026–Present

- Translated stakeholder requirements into TimeForge: time tracking, approvals, KPIs, payroll preparation, reporting, onboarding, and auditable AI-insight workflows.
- Implemented a Laravel and React/TypeScript architecture with PostgreSQL, four server-enforced roles, protected attachments, and rate-limited authentication flows.
- Established 397 automated tests and created setup, deployment, backup, database, QA, and role-based user documentation.

SELECTED PROJECTS

TimeForge — Full-Stack Workforce Performance Platform | React, TypeScript, Laravel, PostgreSQL

Flagship internship build with 211 backend and 186 frontend tests, four policy-enforced roles, an 80-commit sprint history, Docker, GitHub Actions, and operational runbooks. [Repository](#)

Customer Churn Prediction | Python, Scikit-learn, XGBoost, Streamlit

Individual end-to-end ML workflow comparing three models; applies SMOTE inside cross-validation to prevent leakage and evaluates held-out results using precision, recall, F1, and ROC-AUC. [Repository](#)

NLTKBot | Python, NLTK, Flask

Four-person academic NLP project with 38 intents, four-pass matching, VADER sentiment, POS tagging, lemmatization, and Flask API delivery. [Repository](#)

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, PHP, Python, SQL · **Frameworks:** React, Laravel, Next.js, Flask, Streamlit · **Data:** PostgreSQL, Scikit-learn, XGBoost, NLTK · **Engineering:** REST APIs, RBAC, automated testing, Docker, GitHub Actions, documentation

EDUCATION & HONORS

Bachelor of Science in Computer Science — Lyceum of the Philippines University–Cavite | 2023–Present

Fourth-Year Student · Dean's List Awardee for three consecutive academic years (2023–2026)
